

Page 1 — Welcome

“First, users enter the KTV mobile system.
We wanted the opening screen to feel simple and comfortable.

Page 2 — Room Dashboard

“On the main page, users can see the current song and other room functions.
At the bottom, there is a clear ‘Split Bill’ button.”

Page 3 — Select Participants

“Users can choose who will join the payment.
This helps make the bill more flexible for different group situations.”

Page 4 — Bill Overview

“This page shows the total bill, payment details, and split options.
Users can choose Equal Split or Custom Split.”

Page 5 — Custom Split

“In Custom Split, users can change how much each person pays.
For example, someone who spent more can pay more.”

Page 6 — Auto Calculation

“In Equal Split, the system automatically calculates the payment amount for each person.
This makes the process faster and easier.”

Page 7 — Confirm & Pay

“Users can check the payment details and choose a payment method before confirming.”

Page 8 — Payment Status

“After payment, users can see the payment status of the group. The system also sends gentle reminders to unpaid users.”

Page 9 — All Settled

“Finally, when everyone has paid, the system shows a completion page and users can return to the KTV room.”

备注：

1. Page 4 部分有两个按钮，分别是 custom split 跳转到 page 5 ， next 跳转到 page 6.

2. 我选择的是 16pm 机型

这是我目前的完成的部分可以更加丰富优化一下内容和软件功能。
